PROJECTS

Referee Channel

Digital Arts & Designers S.L.

📅 October 2010 – October 2012

📍 International

- Referee Channel is a classification system of all game situations occurred in competition's matches which can be consulted from anywhere in the world without having to duplicate resources, allowing to establish a reliable and proactive communication system between all members of an organization. I was in charge of the server infrastructure and correct operation of the application.
- This tool was used by several institutions and during several competitions in these countries: Colombia, Spain, South Africa, Russia, USA
 - 4th South American Under 20 Futsal World Cup Championship. Itagüí (Colombia)
 - I-International Planet of Football, and Technology organized by Royal Spanish Soccer Federation. Madrid (Spain)
 - 2010 FIFA World Cup South Africa. Pretoria, (South Africa)
 - Russian Soccer Federation. Moscow (Russia)
 - CONCACAF Gold Cup 2010. New York (USA)

112 Accesible

University of Las Palmas & Cátedra Telefónica

📅 June 2011 – November 2011

📍 Las Palmas de Gran Canaria

- 112 Accesible is a winning project of the prize from Cátedra Telefónica developed in the University of Las Palmas to help the emergency services to be more accessible to people who can't contact the 112 Emergency Center by voice call. I organized and produced the contents for 112 Accesible

IESCampus

Neuronal Software S.L.

📅 June 2008 – June 2010

📍 Las Palmas de Gran Canaria, Spain

- IESCampus is an innovative educational website where you find all the resources necessary to achieve quality training in Secondary Education and Baccalaureate. IESCampus includes the full syllabus of the subjects, providing an excellent educational tool for students, and their teachers and parents

Prometeo

University of Las Palmas de Gran Canaria

📅 July 2007 – June 2010

📍 Las Palmas de Gran Canaria, Spain

- E-learning application for the University of Las Palmas de Gran Canaria, based on web and video streaming, in compliance with Bologna Process.
